worked up by zealous congregations of all denominations to fill the church coffers, but the Tuxedo Christian Church has presented comething original in this line.

The ladies have organized under the des ignation "sheep" and the men have banded together as "goats." The idea is for the sheep to extort all they can from the goats, and for the gosts to fleece the sheep at any time possible-all profits to go to the

Last week the sheep had an entertainment, at which the goats were all invited to be present. Traps of all sorts were prepared to relieve the unwary goats of their superfluous eash, and, to judge by what is reported of the affair, the sheep did remarkably well. Not a geat escaped without donating his quota, and it was unanimously voted by the sheep that the goats were

This evening the goats propose to have their inning. At the house of O. P. Cham-berlain, in Old Orchard, they will hold forth. This affair promises to be even more in-teresting than its predecessor, and the Chamberlain lawn bids fair to present a scene that will do more to lure the reluctant dimes from the pockets of the sheep than would a bargain counter. It is a point of honor among the goals that they do better than did the sheep, and they will

spare no effort to be successful.

The printed announcements gotten out for this evening's affair are decidedly interesting of their kind. In flaring letters are the commonplace words "Grand Outdoor Party." But succeeding these is the startling combination "given by the Thyado ling combination "given by the "Tuxedo goats" for the amusement of all other domestic animals."

Upon it also are frank admissions that the goats will fleece the sheep on the grounds. "Admission Free" is stamped up-on the strange announcements, but all else upon it indicates that it will cost a pretty penny to get out.

A sequel to the divorce suit of Julia

Edith Stevenson against William T. Stevenson was a suit for \$10,000 damages, file-i yesterday by Stevenson against his fatherin-law, James T. Jones, on a charge of enticing his wife away from him.

Mrs. Stevenson's suit for divorce was
filed August 2. She said that she and the
defendant were married February 6, 1839,
at Believille, Ill., and separated on July 9,
1890. She charged that her husband failed
to provide for her or their child; that he
would not work or make an effort to obtain
work. She also averred that he drank.
Stevenson is represented in the damage
suit by the law firm of Noonan & Porter.
Judge Noonan said that Stevenson is deeply
attached to his wife, and that an effort will
be made to bring about a reconciliation.
Judge Noonan's firm also represents Stevenson in the divorce suit, in which an answer has been filed, denying the allegations
of the petition, excepting the marriage and

HEALTHY REACTION OF TRADE SEEMS CERTAIN.

BUYERS THINK THAT PRICES HAVE REACHED BOTTOM.

New York, Aug. 17 .- R. G. Dun & Co.'s Weekly Review of Trade to-morrow will

"After a great wave of advancing prices optimism as to business is generally dangerous. But the top was reached the middle of March, since which time reaction has come in every great industry, so that consumers are asking whether in some directions the decline may have not been reasonably as large as was the advance and whether buying on the present basis of prices is not fairly sure.

"There are further evidences of weakness in raw materials, notably the break in structural iron, but each one is availed of to place heavy contracts. New York is welcoming buyers from all over the country in larger numbers than for many years at this season, in dry goods, in groceries, in jewelry and in hardware; and if contracts are not placed to as large a volume as expected by this time it is because of conservatism of those who think they may compel some

further shading of prices.

Bottom Has Been Reached. "Reports this week from other important points of distribution show the same eagerness to buy when the time seems right. It s becoming more apparent that the bottom has been reached in prices of iron and steel. The decline was severe and recovery must be slow, but gradual advances and moder ately increasing activity are more healthy than violent changes.

"In no single division is the improve ment more striking than in any other. Ex-cept steel rails, all forms of iron from the ore to the finished product are being sought more eagerly and with less effort to secure further concessions in prices.

No Dollar Wheat. "The first effect of the official report of wheat conditions indicating a total crop of only 513,97,000 bushels was to strengthen prices, but when the Secretary of Agriculture was reported as predicting "doilar wheat" before the end of the year the market showed no inclination to disagree, and the September option fell below 80 cents at New York for the first time in two months.

"For the year thus far shipments of bools "For the year thus far shipments of boots and shoes from Boston are 2.735,443 cases, against 2.314,855 in 1899, but the volume of business to date has been exceeded in only three years. The trade is suffering from accumulation of stocks that cannot be sold without a loss as compared with the price at which shoes could now be made. "Hides are in a better position than the leather market seems to warrant. "Failures for the week were 151 in the United States, against 106 last year, and 24 in Canada, against 24 last year."

FURTHER EXPANSION IS NOTED IN FALL TRADE.

BRADSTREET'S FINDS A FIRM ER UNDERTONE.

Dun Predicts There Will Be Grad- List of Unfavorable Elements in the Trade Situation Regarded a Negative One.

> New York, Aug. 17 .- Bradstreet's to-morrow will say:

"Among the favorable features reported this week are advices of further expansion in fall trade distribution at leading Western centers, with relatively best buying proceeding from those sections of the Southwest which have profited by good crops, a rather better distribution by dry goods jobbers at the East, a firmer tone and a perceptible growth in confidence, accompanied by heavy buying in some classes of steel and iron and a disposition to believe that an average wheat crop and much more than average corn and oats crops are assured.

"Steady increases in current gross railway earnings over a year ago and an exceptionally favorable net earnings report for the first half of the year are additionally encouraging features.

"The list of unfavorable elements in the trade situation is at best a negative one, the approach of a presidential campaign, though less effective than usual in this respect, the backward demand for spring woolens and the slow demand for raw material, the restriction in production of some makes of cotton goods, the duliness in building male-rials, notably lumber, and the backward inquiry for boots and shoes at the East being among these. Speculation at Low Ebb.

FIRST SHIRT-WAIST PARTY IN ST. LOUIS.

Mrs. John Kelcher Inaugurates the Fad in Functions With Great Success.

MEN WERE WITHOUT COATS.

Affair Was Given in Honor of Young Ladies From Illinois, Who Are Visiting the Hostess.

St. Louis's first shirt-walst party was given on Thursday night by Mrs. John Kelcher of No. 3559 West Chestnut street. Mrs. Kelcher's party was in honor Miss Bessie B. Coon of Chillicothe, Ill., and of the Misses Annie English and Vera Giesenhor of Cairo, Ill., all of whom are visiting her. It was especially prescribed in the invitations that both ladies and gentlemen wear shirt waists, and there was not an exception to the rule; the men were, one and all, minus their coats and suspenders. The garments worn by the men were simply the negligee shirt with cuffs attached. White collars, either high turn-downs or "chokers," with light four-in-hand ties, completed the costume. None wore ruffles or other adorament that sometimes go with the feminine shirt waist.

It was said at the Kelcher home last night that there had been no particular desire to encourage a fad. "The shirt walst," it was explained, "is as adaptable to men's wear as to that of women. It looks well and is comfortable, and there is no reason why the men shouldn't be as comfortable as their f-minine friends. We just gave the party because we thought it would be fun, not thinking so much about what the custom is in the matter of men wearing their coaps. No notoriety as lead-ers of fashion is wanted by us."

Those who were present at the party, in

addition to the young ladies mentioned, were: The Misses Hattle St. John and Pearl Kelleher; Messrs. Connors, Sheehan, Lowry, Gamon and Collum; Messrs. and Mmes. E. E. Acton. A. F. Boehmer, F. Ginter, F. P. Leonard and John Kelcher. Progressive euchre was played, and the first prize, a silver-mounted tankard, was won by Mr. Leonard. Miss Annie English won the "booby" prize, a cut glass bowi.
